OUTLINES.

The Census Bureau of the Agricultural Department yesterday gave out the statistics of the world's production of cotton, giving the total figures as 18,041,859 bales of which the South produced 14,455,994 bales; the world consumed 15,474,980 bales, leaving a world's surplus of 2,566,879 bales; the Southern mills consumed slightly more cotton than the Northern mills——Pensacola led New Orleans in new cases of yellow fever yesterday, reporting 22 to 17 in the Louisiana city; Natchez had 8 and Vicksburg 6 new cases——ovornor Glenn was in Washington yesterday to discuss with President Roosevelt the details for his visit to Raleigh, October 19th——The British government has been notified that Turkish brigands have cut off an Englishman's ear and demand $5,000 for his ransom——The negro who murdered five of the Conditt family is guarded by troops to prevent the people from burning the fiend——Gaynor and Greene, the embezzlers of harbor funds, arrived in Savannah yesterday ——New York markets: Money on call firm at 3 1-2 to 6 1-2 per cent., closing bid 4, offered at 4 1-2; spot cotton quiet at 10.10; flour steady, unchanged; wheat steady for spot, and futures advanced all day final prices showing 5-8 cents net rise; corn firm, No. 2, 50 1-2 elevator; oats firm, mixed 33 to 34; turpentine quiet at 71 to 71 1-2 asked; rosin quiet strained common to good, 3.95 to 4.00 .

WEATHER REPORT.

U S. Department of Agriculture.
Weather Bureau.
Wilmington, N. C., Oct. 9, 1905.

Meteorological data for the 24 hours ending at 8 P. M., Monday, October 9th.

Temperature at 8 A. M., 58 degrees; 8 P. M., 89 degrees; Maximum, 79 degrees; Minimum, 55 degrees; mean, 67 degrees.

Rainfall for the day, .00; rainfall since 1st of month to date, .00.

Stage of water in Cape Fear river at Fayetteville at 8 A. M., Sunday, 2.5 feet.

PORT ALMANAC—Oct. 10.

Sun Rises .....6:03 A. M.
Sun Sets .....5:32 P. M.
Day's Length .....11 hrs. 34 min.
High Water at Southport..6:06 A. M.
High Water at Wilmington..8:36 A. M

Weather Forecast.

For North Carolina—Rain Tuesday and probably Wednesday, colder Wednesday, fresh to brisk east to southeast winds Tuesday.

It is better to be known as a poor cuss than a rich culprit.

Everybody thought Mrs. Cashie Chadwick did big things till the family secrets of the insurance magnates made her operations second rate.

The Republican spellbinders were wont to boast that "Presithings," but here goes a bet that he wont do his Republican Congress with his rate making programme.

Well, after all, the women are not to remove their hats in either the churches or the theatres. The women must have got their heads together and backed up the Milliners' Union in opposing the hats-off movements.

We don't know who it is that is writing those series of articles about "The Making of a Successful Husband," but if she can make a success out of us let her come right on with money enough to make a successful job.

The insurance magnates pretend like they just had to buy up a whole lot of legislatures. If we may judge by the estimates of the papers generally in the various States, the magnates got stuck if they paid much of a price for those they bought.

Mr. John D. Rockefeller is quoted as saying: "Don't think that money-getting is all there is in this world." However, nevertheless recent events show that if you've got barrels of it, money spending will get about all there is in this world.

Japan's national debt is now $1,250,000,000. This means high taxes for the people and is the price of being a world power. No wonder the anarchists howl that the more modern so-called civilized governments are the greater burden the people have to bear.

At St. Louis the other day the police had to be called in to prevent hair-pulling in a dressmakers' convention. We are not mean enough to say that it would have been "pie" to have been there to see the fun but if we had been present we would certainly have been found hanging on the outskirts of that bunch of women while they were chewing the rag.

All the latest Novelties in Millinery at Rehder's. **

LOCAL [illegible]

—License was issued yesterday for the marriage of Martin L. [illegible] and Miss Bessie Skipper, daughter [illegible]s. Florence Gregory, all of Delgado.

—The regular quarterly meeting of the Board of Directors of the Associated Charities, will be held at the office of the association, this (Tuesday) morning at 11 o'clock.

—Very cordial notes of thanks have been sent by the W. L. I. to persons who assisted in making such a magnificent success of the company's bazaar in this city last week.

—Manuel Hill, colored, arrested Saturday night by Deputy Sheriff J. M. Wade at Seventh and Brunswick streets, for disorderly conduct, was fined $5 and costs in Justice Bornemann's court yesterday.

—Effie Ellsler in the old and popular favorite "Hazel Kirke" was seen by a small but very appreciative audience at the Academy of Music last night. The play has lost none of its old-time charm and was put on by a good company.

—The American barquentine Rose Innes, 769 tons, Capt. Rawding, arrived in port yesterday from New York. British steamer Dora having completed discharging cargo here, was cleared yesterday by Messrs. Heide & Co., for Gulfport, Miss.

—Bids for the new municipal electric light plant and for a $100,000 issue of bonds for water works and sewerage will be opened by the city of Fayetteville to-day. The water works and sewerage bonds run for 30 years and bear 5 per cent. per annum.

—The case of John C. Burnett, the colored shopkeeper charged with selling wine on Sunday, was continued again in the police court yesterday on account of the absence of his counsel, Herbert McClammy, Esq., who was engaged in the Monk suit in the Superior Court. The case is set for a hearing to-day.

—The steam tug Grayling, which was ordered sold by Judge Purnell in libel proceedings instituted by the Wilmington, Southport and Little River Transportation Company was sold by Commissioner Collier yesterday at noon, subject to the court's confirmation. The boat was bid in by Mr. M. J. Corbett for $250.

—Mrs. R. W. Davis, wife of R. W. Davis, Esq., a prominent attorney of Southport and postmaster at that place, died suddenly yesterday morning, apoplexy being the cause of death. The deceased was formerly Miss Annie Meier, of this city, and the surviving members of her immediate family are her husband and two little daughters.

IN THE SUPERIOR COURT.

Engaged All Day Yesterday With Monk Suit—The Jury.

Superior Court was engaged all day yesterday in the trial of the case of J. W. Monk, et al. vs. City of Wilmington, particulars of which are now well familiar to readers of this paper. The selection of a jury to try the issues joined required all the morning session, the special venire of 40 and the regular panel of 12 for the second week of the term having been exhausted before both sides announced that they were content. The jury empanelled is as follows: W. J. Meredith, Raymond H. Powell, J. F. Mann, R. N. Sweet, Geo. T. Hewlett, Albert L. Dosher, W. H. Register, Neill McIntosh, Edwin B. Moore, T. E. Sprunt, H. L. Fennell and Robert Smith.

The jury had just been completed at 12:45 when Judge Allen announced a recess until the afternoon. Upon the reassembling of court the plaintiff began the introduction of testimony and the remainder of the afternoon was consumed by the examination of witnesses in that behalf.

The case will probably require all of to-day and, perhaps, a part of to-morrow for its completion.

THE BOYS' BRIGADE.

Weekly Drills Resumed For the Winter—New Officers.

The Boys' Brigade last night commenced its regular weekly drills for the Winter with a full corps of new military officers as follows:

Captain—Joseph J. Loughlin.
First Lieut.—Percy Hall.
Second Lieut.—Wilbur Dosher.
Sergeants—J. F. Russ, first; Alonzo J. Burriss, second; Francis Garrison, third.
Corporals—J. C. McAllister, first; H. O. Thomas, second; J. C. Biggs, third; T. McKeithan, fourth.

The civil officers are:
President—R. H. Orrell.
Vice President—O. C. Hill.
Sec. and Treas.—J. A. Price.

The Brigade starts off under the most auspicious circumstances for the Fall-Winter, the first since occupying its handsome new armory on Second and Church streets. There are now 56 members, exclusive of the Junior Brigade.

NEW ADVERTISEMENTS.

S. & B. Solomon—Old Ladies' Comforts.

Business Locals.

The Star—Boy Wanted.
Mrs. Pinner—Watch Lost.

W. M. Cumming—Building Lots for Sale.

What Do You Know About It?

"The style of bonnets is lovely and they are typical of Fall," declares a Wilmington lady. There is, however, no indication of any fall in the price."

We clip the above article from your editorial column and are at a loss to understand how you could publish this article before we held our opening which will be Tuesday and Wednesday of this week. Our prices are right. Yours truly,
THE C. W. POLVOGT CO.

AS TO CITY STREETS

Special Meeting of the Board of Aldermen Held Last Night at the City Hall

FOURTH STREET DRAINAGE

Majority and Minority Reports—Cost of Macadam and Cost of Vitrified Brick—An Interesting Problem—Other Proceedings.

The Fourth street paving, the drainage for the same and the matter of repairs to the sidewalks of the city were the leading topics of discussion before last night's special meeting of the Board of Aldermen, called by the Mayor at the request of the Streets and Wharves Committee. Incidentally a comparison of the street work done by the former and the present administrations and the question of the difference in the cost of macadam and vitrified brick paving was injected into the proceedings, but as a whole the meeting was quiet and rather more orderly than for some time past.

The meeting was called to order by Mayor Waddell at 8 o'clock, all members being present; also City Clerk and Treasurer Fowler, City Attorney Bellamy, City Engineer Matthew and several of the Department heads. There were few spectators in the room and members of the Board manifested a disposition to complete the work of the session and adjourn early.

The Mayor stated the object of the meeting and called for a report of the Streets and Wharves Committee upon the matter of drainage made necessary by the Fourth street paving. Chairman O'Brien said the majority report recommended the plan for a system of drainage down Nixon to Sixth and down the natural drain on Taylor and Howard streets as prescribed by the City Engineer. Alderman W. H. Yopp, the third member of the committee, submitted a minority report, favoring the emptying of the drain into the natural outlet on Howard street without laying any further pipe as proposed by the City Engineer. He based his report on the grounds of economy, saying the First Ward had shared largely in the appropriation for this year and some of the other wards were badly in need of the expenditure of whatever money was left. He favored the majority plan as far as Sixth and Nixon or Taylor street and said that there the water should be turned into a natural ditch or drain. Mr. Yopp said the Fourth street paving had already cost more than was anticipated, owing to an unnecessary change of the grade as prescribed by the last administration and he also charged that the amended assessment of $1 per front foot was not enough for the property owners to pay; it did not represent the difference in cost between macadam and brick as contemplated in the new law. Of course some macadam was costly where it was laid 16 inches deep, but he understood that the Board might officially adopt a depth of 8 inches for macadam and the difference in cost would be correspondingly larger. The change of the grade on Fourth street, he said, was going to lead to all kind of complications with owners, who would have to change their sidewalks, and the city would have to pay out enough money anyway without laying an expensive system of drainage. He was free to confess the cost of macadam was a puzzling one, but he was advised by the former Superintendent of Streets that the cost was from $1,200 to $1,400. He said the Board of Health had not condemned the ditch into which he proposed to empty the water and he thought the further extension of the drain could wait.

Mr. Karr indignantly asked Mr. Yopp how he would like to have a ditch full of water in front of his house. Mr. Yopp replied that he had about as bad, but Mr. O'Brien had promised him some relief after a while.

Mr. O'Brien said the ditch was inadequate to take off the water and the city was likely to get in trouble with property owners in that section in case of a freshet. Speaking to the question of streets, he expressed the opinion that brick streets could be laid about as cheaply as macadam. He then explained why the compromise had been effected with Fourth street property owners.

The Mayor expressed the opinion that macadam cost about as much as brick and said he didn't doubt but that, after all the expense that had been gone to for repairs, that it would now be a good time to close up the quarry and use brick in the future. He thought the compromise with the Fourth street property owners a splendid one for the city. Rock at the quarry cost $1.35 per ton; 35 cents was required to deliver it and with 10 cents for excavation per square yard, it cost about $1.75 to pave with macadam whereas brick could be laid for $1.71. The brick, he said, were ten times better than macadam.

Mr. Yopp defended the macadam method and said the former administration had laid 42 blocks out of 30,000 tons. He didn't see why an 8-inch depth was not sufficient whereas the former administration had put down some 16 inches deep. The Mayor interrupted to say he knew of none 16 inches deep except Orange street. Mr. Yopp went on to say that he thought good macadam could be laid for half the cost of brick and enumerated some of the big improvements the First Ward has already received, saying other sections should be given a showing.

Mr. Rathjen spoke of the neglect that First Ward had suffered for 30-odd years. He, himself, had been forced to improve his own street. Swann, Harnett, Bladen and Brunswick, from Fifth to Ninth, had nothing for 25 years. He favored beginning the improvements of the streets North and going South to Castle, touching all the wards.

Mr. Karr quoted figures to show that the cost of macadam and brick was about the same. City Attorney Bellamy said there was no official record of the cost of macadam and explained the reaching of an agreement with the Fourth street property owners. It was a good thing, he thought, to settle out of court. Mr. O'Brien thought the least said the better.

City Engineer O'Brien said the Board seemed to lose sight of the fact that the street railway paid 46 cents per foot in addition to the $1 per running foot paid by property owners on each side. Mr. O'Brien quoted the actual figures of the cost of the paving, showing a total of $16,407. Of this amount, under the amended agreement, the city will receive back from property owners $3,572 and from the street railway company, $1,795, making a total of $5,367, or a net cost of $11,040 to the city for the five blocks. Mr. O'Brien, in reply to Mr. Yopp, made a vigorous defence of the present administration saying only $22,000 had been allowed for permanent improvement whereas the former administration had over $50,000. The present administration received the rock quarry a mere wreck and there was nothing in the treasury, so that everything had to wait until it was ascertained how much taxes would probably come in. It was time, he said, to stop this hue and cry about streets. There were only 13 street laborers; any one of the large wholesale houses on the wharf employed as many. It was a shame.

Mr. Yopp, in defence of the former administration, said that it, too, had taken the rock quarry as a wreck; a road roller had been purchased and bequeathed to the new administration and more streets had been built than by all other administrations put together. There was some feeling in the comparison, but the incident passed off very pleasantly. Mr. O'Brien, however, vigorously defended the present administration.

The motion was finally put on the question of whether to accept the majority report on the drainage or the minority. The majority won by a vote of 6 to 4, those voting in the affirmative being Messrs. Price, Moore, Karr, O'Brien, Rathjen and Brown.

Upon recommendation of the committee, the contract for the terra cotta piping for the drain was let to the T. D. Love Company at 25c per foot for 12-inch; 50c per foot for 18-inch and 93c for 24-inch. Mr. Roger Moore bid 26c for 12-inch; 58c. for 18-inch, and $1.10 for 24-inch. Mr. Johnson thought prices were considerably higher than under the last administration. Mr. Brown told Mr. Johnson everything was higher now. Mr. Johnson favored laying the drainage with the city force and extra laborers rather than by contract. Mr. O'Brien said the Superintendent of Streets had all he could do and the force was limited to 13 men, but finally he assented with the employment of extra men and the matter was agreed to.

The Mayor said conditions in the city had greatly changed, the place had grown and the sooner the fact was recognized that there must be an increased police force and an increased street force, the better. "This city can't be run longer on a two dollar and a half basis," the Mayor facetiously remarked.

Mr. O'Brien reported that he had ordered 30,000 Belgian blocks from the N. C. Granite Company, of Mt. Airy, for the paving of foot of Grace street and he presumed they were now on their way here. He said Mr. Yopp had raised the point that the purchase should first have been approved by the Board of Audit and Finance and that under the new law the abutting property owners would have to pay the difference in cost between macadam and Belgian block. The Board had previously authorized him to purchase the material and he wanted to know what to do about it. There had been no agreement with the property owners to pay anything and he didn't know what they would be willing to do. He also said the clerk had not informed the Board of Audit and Finance of the Aldermen's action in authorizing him to purchase the block. The Mayor said that the money was out of the regular appropriation and concurrence by the Board of Audit and Finance was unnecessary. Mr. Yopp thought differently and City Attorney Bellamy was asked for an opinion. He said he thought the matter would have to go before the Board of Audit and Finance. There was much discussion of the point and the mayor said if the disbursement of every appropriation had to be passed upon in detail by the other Board, the Board of Aldermen had as well be abolished. He said the powers of the respective Boards would at no distant day be defined; the time was approaching. The action of Chairman O'Brien in purchasing the blocks was re-affirmed and it was ordered that the street be laid out by the City Engineer, notice be given the interested property owners and that the committe proceed under the new law.

The compensation of the City Engineer was fixed at 2 1-2 per cent., the same as allowed under the former administration.

Mr. W. H. Yopp offered a resolution under the new law requiring the repair of all sidewalks down town after 30 days notice, material to be brick or other material as the Streets and Wharves Committee may elect; also in cases where it is deemed advisable the committee may order new sidewalks, all to be laid under the supervision of the committee and according to grades and lines furnished by the City Engineer. The Mayor said he had already sent out notices under a misapprehension that the Board had passed a resolution as required by law, but Mr. Yopp having found no record in the proceedings, he would send out other notices. The sidewalks named in the resolution are: East and west sides of Front, between Dock and Orange streets; north side of Dock, between Front and Second; west side of Second, between Market and Princess; north side of Market, between Second and Third; north side of Princess, between Front and Second; north and south sides of Princess, between Second and Third; east side of Second, between Market and Princess, and west side of Third, between Princess and Chesnut.

Chairman Rathjen, of the Fire Committee, reported the arrival of the new hook and ladder truck. It will go in commission to-night for 40 days before being finally received by the city.

A bright boy who is quick and accurate in feeding job presses is wanted at the Star Office. 3t**

RUSH FOR CLANSMAN

Scenes Almost Indescribable at Opening of Box Sheet Office Yesterday Morning

A CRUSH AND FISTICUFF

Public Cry Aloud For Protection From Speculators and Scalpers—Every Seat For Both Performances Already Sold.

It remains not for the appearance of Rev. Tom Dixon's "Clansman" in the theatre to-night to add fuel to the flame of race antipathy in Wilmington, if indeed, such will be the case. It came, if you please, with the opening of the box sheet for the sale of reserved seats for the production at Plummer's yesterday morning. The rush was such as has not been seen in Wilmington before in a generation; perhaps, not in the history of the local playhouse.

A large number of white patrons employed colored boys to take their places in line at the door of the box sheet office as early as 7 o'clock Sunday evening and by midnight there were 20-odd pickaninnies, wrapped in blankets and crowded close to the door, awaiting only for the crack of the doors in the morning to squeeze in at their turn and secure the tickets they had been commissioned to buy by their white employers. The fact that many of the negroes were believed to be employed by speculators and that the rush had been anticipated and policemen had been stationed at the door to enforce the rule of "first come, first served," considerably irritated legitimate purchasers among the whites, who had arrived only an hour or two before the opening and were forced to take the rear ranks while the colored boys were on the inside cutting choice seats. There were loud protestations and several fisticuffs ensued in controversies over respective positions in line. The race feeling manifested itself in no uncertain way and but for the presence of the men in blue, serious trouble might have resulted. A small colored boy was picked up by white persons who had employed him and thrown over on the shoulders of others in advance, who were believed to have crowded him out of his position in line, but he was quickly pulled down and hustled away by one of the officers, who saw trouble in such proceedings.

The scenes about the opening are graphically described by those who were present. Every seat in the house was sold before the crowd of people in waiting before the door were able to supply their wants. Each person in line was allowed to reserve ten seats and the management was severely critized for not limiting the number to one person to five or less. There was also harsh criticism as to undue preferences in the line, for all of which the theatre management disclaim responsibility. It was also charged that Mr. Plummer, manager of the box office, employed personally nine negroes to get in line and reserve the maximum number of tickets for him for speculative purposes. This Mr. Plummer emphatically denies in the strongest language. He says that not one ticket was reserved for himself in that manner and that he concentrated every effort to see that legitimate patrons of the theatre were protected. However, there is no denial of the fact that the speculators were largely in the forefront when the box sheet opened, but both Mr. Plummer and the theatre management point out that they were entirely powerless to help it. Had the number of tickets to one person been limited to five, it would have meant that the speculators would have had just double the number of hirelings to remain up all night and that just twice as large a crowd would have been there to be contended with when the box did open. It is estimated that the advance sale for the night performance reached $1,000 within two hours after the box sheet opened.

For the matinee sale, which opened at 3 o'clock yesterday afternoon, the management refused to allow colored boys to reserve seats in any number. However, for the matinee there was almost an equally great rush and the house for that performance was also soon sold out.

The management of the theatre has decided to reserve the third gallery to-night for whites. It has been thoroughly rennovated and the prices for seats there will be 50 cents.

Company Will Not Attend.

At the regular monthly meeting of the W. L. I. last night, Capt. Robertson read the very cordial invitation received several days ago for the company to attend the State Fair and take part in the demonstration in honor of President Roosevelt. The matter of attending the celebration was discussed at some length, but it was finally decided inasmuch as the company recently spent ten days in camp; has just completed a big bazaar and had an opportunity of turning out in honor of the President at the inauguration last March, it would be inexpedient to attempt the Raleigh trip at this time. However, many of the individual members of the company expect to attend the Fair and to see the President on North Carolina soil.

Rev. Milton A. Barber.

The Rev. Milton A. Barber, who for the past five years has been rector of an Episcopal parish at San Marcos, Texas, has accepted a call to a parish in Burlington, N. C., and will enter upon his ministry there on October 5th. Rev. Mr. Barber is a North Carolinian and was formerly rector of St. Paul's parish, in this city. He married Miss Hattie Winfield, of Chocowinity, who had charge of the parish school during his brother's rectorship and previous to her marriage. Many friends in Wilmington will be delighted to know of Mr. Barber's return to the State and hope that his visits here will now be more frequent.

PERSONAL PARAGRAPHS.

—Mr. W. T. Aycock, of Whiteville, was here Sunday.

—Mr. Charles H. Polley, of Hillsboro, was among the visitors to the city yesterday.

—Mr. T. K. Woody will leave to-day to attend the Wilmington Baptist Association at Teachey's, N. C.

—Mr. and Mrs. Otto Banck left Sunday night for Washington, Baltimore and New York to spend some time.

—Mr. R. C. DeRosset and Mr. W. D. McMillan, Jr., left Saturday night via the Atlantic Coast Line for New York city and other localities. They will combine business with pleasure.

—Mr. W. E. Beaton, a very popular young conductor on the suburban line of the Consolidated Company, has resigned that position and will to-day enter the employment of the large dry goods establishment of The C. W. Polvogt Co., in a clerical capacity.

—Mr. M. H. Bowen, who is most pleasantly remembered here as having been formerly a teacher in the public schools of the county, now principal of the Macfeat Business College, a flourishing institution of Columbia, S. C., was here yesterday, returning from Burgaw, where he had been on a brief visit on account of the illness of a brother and his mother.

MEMORIAL TO DR. WILSON.

Handsome Bronze Tablet Will Be Unveiled Next Sunday Week.

A handsome bronze memorial tablet in honor of the late Rev. Dr. Joseph R. Wilson, D. D., has been placed in the First Presbyterian church, of this city, which he so long and faithfully served as pastor and the same will be unveiled with apprporiate ceremony on next Sunday week. The address upon that occasion will be by the Rev. Alexander Sprunt, D. D., pastor of the First Presbyterian church, in Charleston, S. C., and the event is being looked forward to with much interest by Presbyterians of Wilmington at large.

The memorial tablet is placed in the church by devoted friends of the late Dr. Wilson, who sat under his ministry here for so many years, and the fact of its establishment is eminently proper and will be quite pleasing to the general public, many of whom remember the kindly presence of Dr. Wilson in the community.

FROM CITY HALL TO BANK.

Clerk and Messenger to Mayor Goes to Savings Institution.

Mr. Melvin Middleton, who for the past three administrations has served faithfully and with rare efficiency as clerk and messenger to the Mayor of the city, has just been elected cashier of the Brooklyn branch of the People's Savings Bank and entered upon his duties Saturday, succeeding Mr. Hines, who resigns to take another position.

Mr. Middleton's successor at the City Hall has not yet been named, and his place about the building will be exceedingly difficult to fill. He is a young man of engaging manners and undoubted integrity. That he has secured a better position and one that gives promise of still further promotion is very gratifying to his numerous friends.

Mayor's Court Yesterday.

Five cases engaged the attention of the Mayor in the municipal court yesterday, but none of them was important. Perry Alderman, colored, for carrying a concealed weapon, was bound to Superior Court under bond of $50, Dan Taylor, colored, was charged by a negro named James Sanders with an assault with a deadly weapon. Sanders was in hot pursuit of Taylor and shouted to a policeman to catch the fugitive, which he did. Sanders preferring the charge that Taylor assaulted him with a knife. In court, it developed that Sanders was after Taylor with the knife and he was taxed up with the cost of the prosecution.

River Navigation.

Yesterday afternoon's Fayetteville Observer has the following: 'Mr. F. R. Rose, secretary of the Chamber of Commerce, learning to-day that the river could be made navigable at Walker's Bluff by some needed repairs on the jetties there, kept the telegraph wires hot to-day, first wiring to Congressman Patterson and then to the government engineer in charge at Wilmington. That the telegrams had the desired effect is seen by the following received at 3 o'clock: "Wilmington, N. C., Sept. 9. F. R. Rose, Sec'y: A steamboat has been chartered to go to Walker's Bluff at once with a government force. Johnson, engineer."

Set Upon By Highwaymen.

A colored man rushed back to the office of the Hilton Lumber Co., late last night, and reported that he had been set upon by half a dozen negro highwaymen and robbed of about $30. The negro works at Navassa and several blood stains on his person gave weight to the story he told. He said he had started to Navassa and was met by the highwaymen, beyond the baseball park, where the buggy road crosses the railroad tracks. A telephone message was sent to the police station from the Hilton Lumber Co., and officers responded but could get no clue to the robbers.

The Morning Star.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

Tuesday Morning, Oct. 10.

THE YELLOW FEVER GERM.

We have been deeply interested in the fight against yellow fever in New Orleans from the fact that it would afford a fine opportunity to demonstrate the mosquito theory as to the propagation of the disease but more particularly that medical scientists would take advantage of it to seek for the germ or cause of this infection. Some weeks ago the Star's telegraph dispatches from New Orleans announced that it was believed that the germ had been discovered, and we are sure that everybody will be interested in the following from American Medicine, of September 30th:

"During the epidemic in New Orleans an opportunity has been afforded for careful study of conditions leading to the infection, with the result, it is believed, that the causative micro-organism has been isolated and identified. The work has been conducted at the Emergency Hospital by Drs. P. L. Archnard, J. Birney Guthrie and J. C. Smith. Corroborative proof of the reliability of the work is afforded by diagnosis from the blood of patients before the onset of acute symptoms. The life history of the organism discovered by Dr. Archinard has been followed, and its presence in the blood of patients confirmed. Dr. Archinard has kindly promised to make American Medicine the medium of publication of his experiments and results when he has these systematized. The results of the discovery cannot be fully calculated as yet, but it will have a far-reaching influence on all tropic enterprises. Dr. Archinard and his colleagues deserve the highest recognition of their work, which lends additional luster to the already high achievements of the profession in America."

The New Orleans Picayune referring to the experiment says:

"As is well known, the present fever visitation has been taken advantage of by some of our leading medical and scientific men to make a careful study of the conditions governing yellow fever infection, with a view to determining, if possible, the actual germ of the disease thus supplementing the already determined medium for its transmission. Such a development would naturally prove of the utmost importance in making a quiek and certain diagnosis of doubtful cases of sickness, and even lead to more valuable results. It is a source of great gratification that such important progress has been made by local professional talent in laying bare the yet undertermined facts relative to the causation of yellow fever, and the conservative feeling which prompts the scientific gentlemen to make no claims until they are conclusively established is worthy of all praise."

COL. W. R. HENRY WRITING BOOKS.

Star readers generally will remember Col. Walter R. Henry, whilom Democratic spellbinder, later Populist, then Republican, and finally National bank examiner. His residence is now in Charlotte, and recently the Observer announced that Colonel Henry was writing a book. In Monday's Observer the Colonel writes:

"Those in North Carolina who are interested in me, would probably like to know more specifically about the matter. It is true that, since I was so summarily deprived of my offiee as National Bank Examiner, in face of the endorsement of the bankers of the South, I have been working sixteen hours a day on my three books, for which I hold copyright certificates. I have just returned from New York, where I went to see the greatest publishers of that city. I submitted my manuscript. I have a letter from them requesting me to 'hurry the manuscript to completion.'

"The work will be pulished first, and the one which I am asked to 'hasten,' is entitled, 'The Triumphs of Old Age, with a Glance at the Victories of Youth.' To the extent of my ability, I will make this book cover the period from Paradise to the present. It will be my endeavor to make it present every pivotal event, and eminently distinguished personage, in history, sacred and profane. My work might be called, 'A Study in Age or the Progress of Civilization.' It will be noticed that this book will be incidentally a reply to the startling deliverance of Dr. William Osler, made just prior to his departure for Oxford, England."

Col. Henry, in his communication, sends the Observer an advance criticism of Prof. Jerome Dowd, a scholarly North Carolinian, who is now a member of the faculty of the University of Wisconsin. Prof. Dowd, after examining the manuscript declares that it "gives promise of a book which would win a notable success."

We are gratified to note that North Carolina is becoming notable as the producer of authors. Probably no author of recent times has attracted so much notice as the Dev. Tom Dixon, and we are prepared to believe that Col. Henry will give us something worth reading. He is a genius and scholar, and we will warrant that his phrasing will be of picturesque and readable character.

STEEL PASSENGER COACHES.

Some time ago the statement was made that steel cars for passenger service would soon be in use. If we are not mistaken both steel and freight steel cars have proven by fair test. Anyhow everybody will be interested in the statement of the Brooklyn Citizen that steel cars will ultimately be in service on all the important roads of the United States.

The Citizen goes on to say that steel cars are being tested on the Long Island road, on the Erie and others, and many have been in constant use for months in the Manhattan Subway.

They weigh but little more than the wooden cars, and that is really an advantage for fast going, as they are less likely to jump the track at any time. In case of collision they would not be telescoped, be smashed to splinters or take fire; and so, if collisions must be, some of the danger that always attends them where the cars are of wood will be eliminated.

This is what moves the Pennsylvania Railroad Company to order 1,500 steel cars for its passenger service, and there is no room to doubt that its example will be followed by other railroad companies everywhere. The steel car costs a litle more perhaps than the wooden ones, but it lasts longer, as is proved by the use of steel cars for carrying coal, stone, earth, etc., on many roads for years past.

REVIEW OF REVIEWS.

That great magazine, the American Monthly Review of Reviews for October is a magnificent edition as to great variety and value of contents. It is also handsomely illustrated and its pages furnish an intellectual feast. If any one wishes to keep up with current history this magagazine's "Progress of the World" will keep him posted, not to mention the feature under "Record of Events," and the scores of timely articles by strong writers. New books are discussed and there are numerous features to entertain and edify readers. Subscription price $2.50 a year; 25 cents per copy. Address The Review of Reviews Co., 13 Astor Place, New York.

TWINKLINGS.

—"What did you do with all those unpaid bills, Julia?" I saw they were beginning to worry you. dear, so I destroyed them."—Life.

—"Johnny!" "What, papa?" "Run down to the pawnshop, and ask Mr. Dinglestein what time it is by my watch."—Cleveland Leader.

—She—I wish that woman in the next flat would stop talking goo-goo talk to her husband! He—Oh, well, let her! Poor thing, maybe she hasn't a dog.—Detroit Free Press.

—"Does it create a furor in your family when you go home late?" asked Bjones of his friend. De Smith. "No, it creates fury," was the suggestive answer.—Chicago Record-Herald.

—"How do you know that young Rounder's intentions are serious?" "He's quit giving me flowers and candy and substituted chafing-dishes and cook-books and things."—Cleveland Leader.

—"How far is it from here to the next suburb?" asked the stranger in the automobile. "It's four rock hills, two deep creeks, and nineteen policemen with stop watches," said the native by the wayside.—Chicago Tribune.

—Bride (on honeymoon) — Now, George, do go into the smoking car and stay a long time so people won't think we're just married. George—All right, my dear, I'll go at once. Bride—And, George, be sure and come back in ten minutes.—Boston Commercial Bulletin.

—"Why are you ringing that bell?" asked the neighbor of the peddler. "I want to sell the gentleman a patent trouser hanger," replied the man with the satchel. "No use. His wife is away and he hangs his trousers on the gas jet or the first place handy."—Chicago News.

CURRENT COMMENT.

—"There can be no crime without intent," says the New York "Outlook" in its defense of Mr. John A. McCall. That is doubtless true, but intent may be established by circumstances. When a man systematically takes other people's money and misappropriates it, his mere protest that he meant no harm will not acquit him.—Norfolk Landmark.

—If the presence of petroleum in the soil of Cape Colony, South Africa, in very large quantities be true, as affirmed by the engineers who have been surveying and prospecting there, a new rival of the Standard Oil Trust in this country will soon be competing in the markets of the world. Something, of course, depends on the quality of the oil and its treatment in the refining process; but a large yield from African wells would certainly affect the market everywhere.—Brooklyn Citizen.

—The long heralded Industrial News, of Greensboro, appeared yesterday. It was a very beautiful paper and carried in addition to the full Associated Press, a fine State and local service. It says frankly that it is to be a Republican paper, but, if it can do aught to promote free thought among we North Carolinians, it will be a benefit and a boon. The Observer gives it a cordial welcome into the field of North Carolina journalism and trusts with all sincerity that it will live up to its announced purposes and its opportunities.—Charrotte Observer.

—Charleston capitalists are reported to have lost about $2,000,000 in the past two years in industrial enterprises in the State, such as cotton mills, and, naturally, they are chary of such investments. There is no reason why cotton mills should not pay in South Carolina, and those that are conducted on sane, conservative lines do. There have been some mills practically wrecked by the indulgence in "high finance methods" on part of the management or of actual dishonesty on the part of the officials. One remedy would be the closer supervision of their property on the part of stockholders. Another, and very effective, remedy would be to put some guilty people in stripes, and cease allowing resignations with expressions of regret accompanying them.—Columbia Record.

—The last issue of the Manufacturers' Record, of Baltimore, has ten long columns filled with extracts from Southern papers. ranging from Virginia to Louisiana, complaining of the difficulty of obtaining labor. The extracts begin with one from The Landmark describing the troubles which Norfolk builders are having in finding a sufficient number of competent workmen to execute their contracts on hand. Going down the line we see complaints of the same sort from the owners and operators of lumber-mills, canneries, foundries, mines, cotton fields, sugar plantations, railroads, and many other enterprises, the whole dismal series rounded off by a lusty wail about the decline of domestic service. Everywhere people are trying to hire help; everywhere at the same time there is a vagrancy problem.—Norfolk Landmark.

COMMERCIAL.

WILMINGTON MARKET.

(Quoted officially at the closing by the Chamber of Commerce.)

STAR OFFICE, Oct. 9, 1905.

SPIRITS TURPENTINE—Market firm, 67 1-2 bid.

SWEET POTATOES—Firm at 95@ $1.00 per bushel.

BEEF CATTLE—Dull at 2 1-2@3c per pound.

THE COTTON MARKET.

New York, Oct. 9.—The cotton market turned very weak after an early advance and closed at just about the lowest level of the day, or a net decline of 20 to 22 points; sales were estimated at 600,000 bales. The opening was firm at an advance of 1 to 8 points in response to higher cables, reports of a storm along the gulf coast and predictions that low temperatures in the Northwest would work down into the belt. It was an October notice day and reports that tenders representing some 40,000 bales were circulating caused irregularity early and a slight set back from the opening figures but when it was seen that various banking and trade interests were taking up the cotton against sales of the later months, the market firmed up to a net advance of about 14 to 15 points. At this level offerings increased and it looked as though Wall street bulls were trying to liquidate. This was followed by a renewal of aggressive local bear pressure and the market meeting with little support broke in a sensational manner with large stop loss orders uncovered around the closing figures of Saturday about 25 or 30 points under the best point of the morning, big local bears covered but without causing any material rally and while the closing tone was steady, prices were within 2 or 3 points of the bottom. The census report on distribution attracted little attention.

Receipts of cotton at the ports today were 52,813 bales against 54,945 last week and 77,339 last year. For the week estimated 375,000 bales, against 348,744 last week and 398,595 last year. Today's receipts at New Orleans were 7,385 bales against 15,267 last year and at Houston 21,702 bales against 13,688 last year.

Spot closed quiet; middling uplands, 10.10; middling gulf, 10.35; sales 4,300 bales.

Futures opened firm. October, 9.57; November, 9.70 bid; December, 9.92; January, 10.03; March, 10.13; April, 10.19; May, 10.21.

Futures closed steady at the decline. October, 9.35; November, 9.48; December, 9.65; January, 9.75; February, 9.80; March, 9.87; April, 9.91; May, 9.95.

Port Movement.

Galveston—Steady, 10c.; net receipts, 19,671 bales.

New Orleans—Quiet, 9 13-16c.; net receipts, 7,385 bales.

Mobile—Nominal, 9 1-2c.; net receipts, 2,954 bales.

Savannah—Quiet, 9 5-8c.; net receipts. 12,774 bales.

Charleston—Quiet, 9 1-2c.; net receipts, 1,209 bales.

Wilmington—Quiet, 9 1-4c.; net receipts, 4,839 bales.

Norfolk—Steady, 9 13-16c.; net receipts, 3,981 bales.

Baltimore—Nominal, 10c.

New York—Quiet, 10.10.

Boston—Quiet, 10.10.

Philadelphia—Steady, 10.35.

Total to-day, at all ports—Net, 52,813 bales; Great Britain, 30,594 bales; France, 5,225 bales; Continent, 15,161 bales; Japan, 500 bales; Stock, 817,140 bales.

Consolidated, at all ports—Net, 113,299 bales; Great Britain, 31,393 bales; France, 5,225 bales; Continent, 15,336 sales; Japan, 500 bales.

Total since September 1st at all ports—Net, 1,374,895 bales; Great Britain. 300,980 bales; France, 80,278 bales; Continent, 345,579 bales; Japan, 2,526 bales; Mexico, 100 bales.

Interior Movement.

Houston—Weak, 9 7-8c.; net receipts, 21,702 bales.

CHICAGO MARKET.

Chicago, October 9.—Wet weather in the northwest imparted strength today to the wheat market here. Higher prices for wheat at Liverpool increased bullish sentiment. At the close, wheat for December delivery was up 3-4c. Corn shows a gain of 3-8c. Oats are up 1-8c. Provisions are practically unchanged.

The leading futures ranged as follows:

	Open	High	Low	Close
Wheat, No. 2.—				
Dec.	85¼	85⅞	85¼	85⅞
May	86⅝	86⅞	86⅜	86¾
Corn, No. 2.—				
Oct	51	51⅛	51	51⅛
Dec., old	45½	45¾	45½	45⅝
Dec., new	44⅜	44¾	44⅜	44¾
May	43¾	44	43¾	44
Oats, No. 2.—				
Dec.	28½	28¾	28⅝	28⅝
May	30⅝	30⅞	30⅝	30¾
Mess Pork, per bbl.—				
Oct.	15.25	15.25	15.22½	15.25
Jan.	12.40	12.45	12.40	12.40
Lard, per 100 lbs.—				
Oct.	7.15	7.15	7.12½	7.12½
Nov.	7.17½	7.20	7.17½	7.17½
Jan.	6.87½	6.87½	6.85	6.87½
Short Ribs, per 100 lbs.—				
Oct.				8.52½
Jan.	6.50	6.50	6.47½	6.47½

Cash quotations were as follows:

Flour, steady; No. 2 spring wheat, 85@86; No. 3 spring wheat, 78@85; No. 2 red, 84 1-4@84 5-8; No. 2 corn, 52 1-2@53; No. 2 yellow, 55@55 1-4; No. 2 oats, 28 5-8; No. 2 white, 29@30; No. 3 white, 27@29 1-4; No. 2 rye, 68 1-2; Mess pork, per bbl., 15.20@15.25; Lard, per 100 lbs., 7.17 1-8; Short ribs sides (loose), 8.50@8.55; Short clear sides (boxed), 7.87 1-2@8.00; Whiskey, basis of High Wines, 1.30; Clover, contract grade, 12.50.

Steamer Compton—47 bales cotton, 10 casks spirits turpentine.

Total—4,839 bales cotton, 41 casks spirits turpentine, 77 barrels rosin, 76 barrels tar, 98 barrels crude turpentine.

Don't Borrow Trouble.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow, is trouble. When sick, sore, heavy, weary and worn-out by the pains and poisons of dyspepsia, billiousness, Bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At R. R. Bellamy's drug store. Price 50c. Guaranteed.

Plans to Get Rich

are often frustrated by sudden breakdown, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start Cure headache and dizziness too. At R. R. Bellamy's drug store; 25c., guaranteed.

RAILROAD RATE LEGISLATION.

Failure of Massachusetts Republicans to Endorse the President's Policy.

(Special Star Telegram.)

Washington, D. C., Oct. 9.—The lines are being drawn daily more sharply for the approaching contest over the fixing of railroad rates by government authorities. On top of Senator Foraker's speech against government rate making and ex-Secretary of State Olney's statement as a representative of the conservative branch of the Democracy, in similar vein, came William J. Bryan's letter to the President assuring the latter of the Nebraskan support in any attempt to force a rate making bill through Congress and the statement of Representative Townsend, presumbably by authority, that the President is determined to force the enactment of a measure similar to the EschTownsend bill, if he can do it.

The latest development is the conspicuous failure of the Massachusetts Republicans, in their convention last Friday, to support the President in his reported attitude. Like the Ohio Republicans, those of Massachusetts are in favor of the suppression of rebates and discriminations by the vigorous enforcement of existing laws, but they are against giving the power to fix transportation rates to the Interstate Commerce Commission. Not only did the convention refuse to insert a rate making plank in their platform but they also declared for tariff revision, a subject which the administration, as well as the sandpatters, seems anxious to sidetrack. On this phase of the legislative programme, the convention of Massachusetts Republicans, a body which is undoubtedly representative of prevailing Eastern sentiment, contented itself with saying:

"We endorse most heartily the President's fearless enforcement of laws enacted to prevent corporations from oppressing the people by unjust discrimination or by the destruction of lawful competition. In such action he should receive the earnest support of all our citizens. The rights of every citizen must be safe-guarded and we favor such additional legislation as may be necessary to prevent all unjust discriminations in the form of railway rebates under any device whatever."

The advocates of radical legislation admit their disappointment at the conservative action of the Bay State Republican organization. The opponents of the proposed lesgislation point out that Massachusetts, in its attitude on the issue, endorsed in lukewarm fashion the conservative position taken by the Republican convention in Nebraska on September 24th. That convention thus summarized its views of the necessity for legislation on the railroad rate question:

"We believe strictly in the principle of equality before the law as applied to the transportation business and therefore, demand immediate relief through the enforcement of existing laws, or through amendatory legislation, from the payment of rebates to favored shippers, and unlawful and wrongful discrimination between communities and individuals, both in the State and in the nation. We request and demand of our representatives in Congress active and harmonious cooperation with President Roosevelt along these lines, to the end that corporate rapacity, extortion and abuses may be subdued and abolished, and the sovereignty of the people over corporations fully, promptly and permanently established."

Advocates of conservatism in legislation affecting the relations between the government and property owners are pointing out that neither Massachusetts nor Nebraska uttered a word in endorsement of a plan to vest in a Federal commission the right to fix freight rates on the commercial highways. Their Representatives in Congress, therefore, seem likely to have the choice presented to them of following th mandates of their own people or that of the President.

MAYOR OF FRANKFORT, KY.

Tells What Vinol is Doing in the South.

"To Whom it May Concern: For the benefit of the people of Wilmington permit me to say a few words in the columns of the Star endorsing the peerless merits of that modern cod liver oil preparation, Vinol.

For years I suffered from indigestion, stomach trouble and general nervous debility. I had spent lots of money with different doctors and tried all kinds of medicines, but without any benefit whatever.

MAYOR DARNELL.

Some of the city officials and prominent citizens here called my attention to what Vinol had accomplished for them, and induced me to give it a trial. I must confess that it certainly worked wonders for me. It was delicious to take and did not upset my stomach like old fashioned cod liver oil and emulsion; it gave me a hearty appetite, cured my stomach trouble and strengthened and invigorated my entire system. I wish every sick person in Wilmington would try this great cod liver oil preparation, Vinol." J. S. Darnell, Mayor of Frankfort, Ky.

Our local druggist, Robert R. Bellamy, says, "The above letter is perfectly genuine, and we endorse all Mayor Darnell says. We guarantee Vinol to increase the appetite, cure stomach troubles, renew the vitality of the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or we will return to the purchaser every dollar paid for it." Robert R. Bellamy.

The gain in new building and industry in North Carolina is greater than at any period in the State's history.. The North Carolina Home Insurance Company, of Raleigh, N. C., should receive its proposition of this prosperity as compared with the percentage of new business given to it in periods of less industrial activity. Give it the insurange on the desirable new properties you have to offer. It will help to build up our home State and continue the great era of prosperity now enjoyed by our people.

Coal -- Wood -- Coal

A Convenient Way to Buy Coal.

We have a constantly increasing number of customers who purchase their Winter's coal supply as they are able. When they have the price, they buy a ton, pay for it, and have it sent home. A little later on them get another ton and so on until their full supply is all in. Doing it this way the weight of the whole purchase is not felt. At the same time they have their fuel supply laid in and paid for ready for use before the Winter comes.

If you cannot order your whole supply at once try this plan. We are as pleased at receiving an order for one ton and give the same attention as one for a large quantity.

Anthracite Egg	$6.50 per ton
Anthacite Stove	6.50 per ton
Anthracite Chestnut	6.50 per ton
Best Tennessee Jellico Lump Coal	5.50 per ton
Best Virginia Lump Coal	5.00 per ton
Wood cut any desired length	1.25 per load

SPIRITS TURPENTINE.

time four prisoners walked out. The officers are completely at loss to understand how they escaped.

—Mr. Ben M. Cahill is putting the machinery in place at Madison, Rockingham county, for a chair factory with a capacity of 300 chairs per day. The machinery will soon be in motion, and many families will be employed in the plant.

—Burke county claims to have the oldest postmaster in point of service in the State and perhaps in the United States. Mr. Ben Barrier has been postmaster at Jonas Ridge for 52 years. He is 86 years of age and is remarkably active for one of his age.

—At Franklinton on Saturday fire broke out on the cotton yard at about 1:30 o'clock, caused by sparks from one of the engines on S. A. L. Railroad. About sixty bales of cotton were damaged. They were owned by one of the most worthy merchants, Mr. A. S. Joyner. The cotton was fully covered by insurance.

—Raleigh News and Observer: Miss Beulah Haithcock, a pupil at New Hope county, Wake county, last Sunday committed and recited one thousand verses in the Bible. She won the prize offered by Mrs. A. C. Green, teacher of the class. A Buncombe girl committed over 12,000 verses in ninety days. But the Wake girl repeated 1,000 verses at a sitting.

Newton's beautiful new edifice of the Centenary Methodist Episcopal church, South, will be dedicated Sunday, October 22nd. by Bishop Duncan, of South Carolina. The dedicatory exercises will continue through the week; the services each day will be conducted by a preacher who has been a former pastor of the church. The architecture is Romanesque and the edifice cost $80,000.

—Two mysterious jail deliveries have occurred at Reidsville within the past few days. The first time a desperate blockader escaped and the last

—Owing to the decision of the receivers of the Independent Cotton Oil Company, not to operate the oil mills, the plant at Wadesboro will not be run this season; the machinery will be idle after the closing down of the ice plant some time in November.

—Saturday was a big day with the leaf tobacco warehouses and the tobacconists of Durham. During the day over 150,000 pounds of tobacco were sold. It was late at night when the warehouseman finished figuring up the sales of the day. The sales lasted until about night. The prices are stated to have been about 15 per cent. higher than were paid for the same grades of tobacco two weeks ago.

—Col. John S. Cuningham, president, makes the following announcement: There will be a meeting of the North Carolina Cotton Association in the hall of the house of representatives in Raleigh, N. C., on Friday, the 20th of October, 1905, at 7:30 P. M. President Harvie Jordan has been invited to address the association, and addresses will be made by other speakers. President Jordan urges our farmers to stand firm.

—Reidsville correspondence: Rockingham's county home is perhaps one of the best kept in the State. Everything possible is done for the comfort of the inmates. A valuable addition was added a few years ago when the asylum for lunatics was erected. Here the unfortunte creatures are admitted when they are unable to gain admittance into the State Hospital at Morganton. It is only a question of time when each county in the State will have a similar institution.

—A dispatch from Durham on Saturday says: The Durham and Southern Railway will soon be running trains into Durham, according to a statement made by Captain R. I. Cheatham, general manager of the road. He said that the work was progressing rapidly and he expected that trains would be coming into Durham before the holidays were over. The road-bed has been graded and large forces of hands are now laying the track. The road runs from Durham to Apex and will connect at Apex with the main line of the Seaboard and with the Cape Fear and Northern. There is talk that for the present the freight depot of the Seaboard road will be used by the new road.

—Statesville Mascot: Mr. William Brawley was a pleasant caller at this office Saturday, and was telling of a large poplar tree in Shiloh township on the farm of Mrs. Becky Conner. Mr. Brawley said he had measured the tree, and that it was thirty-two feet in circumference, and had twelve limbs on it that were over fifteen inches in diameter. The tree is over a hundred years old and was topped just about a hundred years ago. Mr. Brawley says that when the tree was in its prime it would shade nearly an acre of ground, and that some of the limbs are a hundred feet long. Lightning has struck it several times, yet it stands as a monument in the forest. This is indeed a large tree, and though there may be larger in this section, we do not just recall them to mind.

—Dunn correspondence, Oct. 7th: The anti-liquor and blind tiger movement in this community has not in the least abated. It is determined to suppress the liquor evil in all of its various forms. The temperance forces in this vicinity are working with an unconquerable preseverance and good results are following. The Federal authorities have made this place headquarters apparently for some time. They destroyed one blockade or moonshine distillery outfit this week in Banner township, about four miles from Benson. The work was done by J. P. H. Adams and A. F. Surles. The operatives were not arrested but it is almost certain that they will be, as their identity is established. L. M. Ryals, the deputy sheriff of Johnston, and who resides at Benson, was bound over on yesterday to the Federal Court under a bond of $200 for selling without license.

—Raleigh News and Observer: In the Confederate cemetery at Raleigh, which is upon an eminence in Oakwood, lie buried scores of men who lost their lives wearing the gray. They enlisted from all parts of North Carolina and from other States and all who honor the record they made owe a debt of gratitude to the good women of Raleigh who provided for their burial and the care of their graves. At the State convention of the Daughters of the Confederacy in Morganton last week it was decided to erect a memorial arch at the entrance of the Confederate cemetery in Raleigh. It is a noble work the Daughters have undertaken and nobly will they perform it. The plans have not been perfected, but it is expected that it will be of granite and that each chapter will contribute a block to make the arch. It will not only commemorate the valor of the Confederate soldier, but as well be a memorial of the devotion of these thousands North Carolina Women to the cause they love.

CLEARING HOUSE STATEMENT.

Averages at Close of Business for Past Week.

By Wire to The Morning Star

New York, Oct. 7.—The weekly averages of the clearing house banks of this city for this week follows:

Surplus, $4,286,175; decrease, $3,153,850.

Ex-United States deposits, $6,391,050; decrease, 3,172,750.

EUROPE ADMIRES ROOSEVELT.

Emperor William Sends Highest Personal Regards.

By Wire to The Morning Star.

Washington, Oct. 7.—Representative Bartholdt, of St. Louis, chairman of the American delegation to the Inter-Parliamentary Conference at Brussels, presented to President Roosevelt today a personal message of felicitation from Emperor William of Germany.

"Do me the honor," said Mr. Bartholdt, quoting the German Emperor, "to convey to President Roosevelt my highest personal regards."

Mr. Bartholdt, who had an extended interview with the President, said that President Roosevelt was held in the most cordial estimation by the rulers of European powers.

MR. HEDGPETH INJURED.

Fell In Railroad Car—Superintending Its Loading.

Special Star Correspondence.

Dillon, S. C., Oct. 7.—At Rowland yesterday afternoon, Mr. L. Z. Hedgpeth, a prominent merchant and mill man, sustained a painful accident. He was superintending a gang of hands loading cars with lumber, and in order that he might easily get into the cars he had placed a plank, one end on the ground, the other on the door of the car, and just as he was stepping from the plank into the car, the plank slipped off the car door and he fell heavily, his head striking the side of the door violently and severely bruising his left side and arm.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Wilmington People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Wilmington.

J. A. White, electrician for the Coast Line Railroad, at Rocky Mount, formerly residing at 206 North Sixth street, says: "I had great trouble with my back, right across the loins, and when I sat still for a while I hardly knew how to move and when I did you would think I was seventy-five years old. There were pains all over me and I could not tell where they were to strike me. I used liniments and lots of remedies, but nothing did me any permanent good until I procured Doan's Kidney Pills at Bellamy's drug store and used them. They helped me in a very short time and seemed almost to oil up my joints; in fact, I have not had the pains since I used them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—DOAN'S—and take no other. **

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

HARDIN'S PHARMACY, Special Agent.

Full of Tragic Meaning.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At R. R. Bellamy, druggist; guaranteed; 50c and $1.00. Trial bottle free.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. **

New Cure for Cancer.

All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c. at R. R. Bellamy's drug store.

RAILROAD PRESIDENT REMOVED.

Outcome of Clash Between Wabash Official and George Gould.

By Wire to the Morning Star.

New York, October 5.—Joseph Ramsey, Jr., was today removed from the presidency of the Wabash Railroad Company at a special meeting of the board of directors, held in this city. F. A. Delano was elected as his successor. Eight directors, including Mr. Ramsey, were present at the meeting.

Mr. Ramsey has been engaged in a contest with Mr. Gould for the control of the road. Mr. Ramsey, after the meeting said his removal was entirely illegal for the reason that the meeting had not been properly called. He made a protest before the board saying that the by-laws required five days notice for a special meeting of the board, and that the notices for this meeting were mailed only Wednesday night. His protest was overruled however.

President Delano took charge of his office at once. "Mr. Ramsey and I have always been friends, hitherto, in the railroad business," said he, "and I do not want to come into this controversy in any way. As to Mr. Ramsey's charge about the illegality of the meeting I can say nothing. I am not a lawyer. But there were several good lawyers on the board at the meeting and I presume that they would not attempt anything illegal. It was the general understanding that this was an adjourned meeting."

St. Louis, October 5.—When shown the dispatch from New York, F. W. Lehmann, an attorney representing Mr. Ramsey in the application recently filed for a writ of temporary injunction against the holding of a meeting in Toledo, October 10, said to the Associated Press: "All I have to say at this time is that the action in New York today will not in any way affect our action here for an injunction. We will proceed just as had been decided upon."

The Italian Steamer Citta di Palermo, which stranded on Diamond Shoals off the Hatteras coast Tuesday night, was floated at noon yesterday by the wrecking tugs Rescue and Luckenbach. The vessel is apparently uninjured.

Dr. J. Sills Daniel was yesterday found guilty in the United States District Court at Richmond of using the Federal mails for advertising a device for use in performing criminal operations. A fine of $250 was imposed, which was paid forthwith. The jury was in consultation 40 minutes before arriving at a verdict.

—Sumter News: "Division Superintendent C. L. Porter, of the A. C. L., who has been in Sumter for past two days with an extra force of hands has considerably relieved the congested freight and cotton conditions at this point. Up to 6 P. M. yesterday all cotton prepared for shipment had been loaded, and the work at the freight depot such as delivering local freight had been caught up with."

WILMINGTON, N. C.

Tuesday Morning, Oct. 10.

SENATOR FORAKER AGAINST ROOSEVELT

By Wire to The Morning Star.

Cincinnati, Oct. 9.—Because of troubles at Philadelphia and the impropriety of his participating therein, Unnited States Senator Foraker, has cancelled his engagement to speak in Philadelphia. October 18th. In an interview to-day Senator Foraker said:

"The telegram from New York to the effect that the administration is offended because I accepted an invitation to speak in Philadelphia is ridiculous throughout. When I shall speak and what I shall say are questions that I answer for myself and no one concedes my right to do so more thoroughly or cheerfully and cordially, than President Roosevelt. Neither in accepting the invitation nor in cancelling the engagement did I have any though of the administration one way or the other, and would not have been influenced thereby one iota if I had. I have not made any attack upon the administration. I have supported the administration in all its propositions and policies, agreeing with it thoroughly, excepting the proposition to remedy railway evils by confering the rate making power on the Inter-State Commerce Commission. I believe in remedying these evils and that the administration is to be commended for calling attention to them, and asking Congress to legislate on the subject, but I don't believe the best way to do this is to confer the rate-making power on the Inter-State Commerce Commission or any other governmental agency."

FIGHT OVER THE WABASH.

Gould Has Ramsey Whipped All But Counting the Votes.

By Wire to The Morning Star.

St. Louis, Oct. 9.—In the St. Louis circuit court to-day Judge Daniel G. Taylor denied the application of Joseph Ramsey, Jr., deposed president of the Wabash railroad, for an injunction to restrain the Missouri and Iron Mountain roads or their trustees from voting Wabash stock held by or for those roads in the annual Wabash election to be held in Toledo to-morrow. News of the decision was telegraphed at once to Toledo when Geo. J. Gould and his supporters and Joseph Ramsey and his personal advisers are awaiting the decision. The failure of the injunction suit, which, if successful, would have tied up a large block of Gould stock, is regarded as a most important victory for the Gould interests.

Toledo, Oct. 9.—George J. Gould, arrived in Toledo late this afternoon ready for the annual meeting of the Wabash railroad, which is to be held to-morrow. Joseph Ramsey, Jr., ex-president of the road, the former friend and present antagonist of Mr. Gould, is also on the ground prepared to fight for the control of the Wabash system.

Mr. Gould himself, this afternoon, declined to discuss the probable outcome of the meeting, but his friends confidently predict that he will not only retain control of the Wabash system by an overwhelming majority of votes, but that when the smoke of battle has cleared away it will be found that only has not Mr. Ramsey failed to gain control of the system, but that he has been removed from it entirely and that his name does not even appear in the new board of directors.

Mr. Ramsey, like Mr. Gould, declined to make predictions. He is, however, to all appearances cheerful and confident to a degree. Neither side will give figures as to the total number of proxies controlled, but the Gould party declared to-night that the decision of Judge Taylor in St. Louis which gave to Mr. Gould practically 140,000 votes, meant nothing to him so far as ability to control the meeting is concerned. No matter how that case was decided they claim Mr. Gould has so large an excess of votes, that it would not alter the result.

MURDER FIEND CAPTURED.

Will Be Guarded by Troops to Prevent Burning.

By Wire to The Morning Star.

Houston, Texas, Oct. 9.—Monk Gibson, the negro accused of complicity in the murder of the Conditt family at Edna, has been captured and safely lodged in the Edna jail. The troops sent by the Governor are still quartered at Edna, and Gibson will escape mob vengeance. The negro was discovered sleeping in an outhouse by Walter Warren, colored. Warren notified the sheriff, who with the militia, lodged the fugitive in jail.

WARM WIRELETS.

Complete order has been restored in the streets of Moscow by the police and military patrols, reinforced by a regiment of dragoons from Tver. Work was resumed yesterday in some sections of the city, but the strike continues elsewhere.

This week will mark the close of the Lewis and Clark Exposition at Portland, Oregon, after a successful career not anticipated by even the most enthusiastic supporters of the project. Before the closing day is over the fair will have recorded an attendance of practically 2,250,000 persons, the combined population of the old Oregon territory.

The treaty of peace between Russia and Japan will become effective upon its approval, without waiting the formal exchange of ratifications at Washington. This information was imparted at the Japanese legation at Washington yesterday. This course has been decided upon that the speediest possible termination of the war may be had.

At Washington yesterday the Supreme Court of the United States convened for the term of 1905 and 1906 with all the members present. No business was transacted beyond the calling in a body upon the President.

Announcement was made at Pittsburg, Pa., yesterday that on account of yellow fever in the South the date fixed for the dedication of the monument erected at Andersonville, Ga., for Pennsylvania soldiers who died in Andersonville prison, has been postponed from November 13 to December 7.

COTTON CROP OF THE WORLD

Production Past Year Was 18,041,859 Blaes, of Which South Grew 14,455,994.

WORLD CONSUMED 15,474,980

Southern Mills Spun More Cotton Than Northern Establishmens — Consumption in South Has Nearly Doubled in Five Years.

By Wire to The Morning Star.

Washington, Oct. 9.—The Census Bureau to-day issued a bulletin showing the production and distribution of the cotton of the United States available between September 1, 1904, and September 1, 1905 to be 14,455,994 Bales. Of this sixty-one per cent. was exported, thirty per cent. was used in domestic consumption, leaving a surplus of nine per cent. The domestic consumption includes 36,776 bales destroyed by fire.

The exportation amounted to 8,834,929 bales, the domestic consumption 4,315,756, and the surplus 1,305,309. Of the total 13,693,279 bales were included in the crop of 1904, and the remainder in that of 1905. Of the quantity consumed in the United States 2,138,829 bales were used in Northern and 2,140,151 in Southern mills. In addition to the totals given 124,469 bales of foreign cotton were imported into the United States during the year. The exportation for the year covered, exceeded that of any previous 12 months by 1,144,452 bales, and they exceeded the average for the last ten years by 2,313,948 bales. New Orleans with a total of 2,463,421 bales held first rank as an exporting point, but was close pressed by Galveston with 2,388,318 bales. Savannah, Ga., with 1,290,989 bales held third place. The value of the total export was $404,209,293. The export of raw cotton was distributed in bales as followed:

To the United Kingdom, 4,043,999; Belgium, 161,151; France, 857,103; Germany, 2,115,672; Italy, 536,929; Russia, 125,463; Spain, 289,688; other, 172,112; Japan, 324,668; British North America, 125,407; Mexico, 73,276; all other countries, 9,461.

The total number of producing spindles in the United States is reported at 24,077,524, of which 8,211,734 were in the South and 15,865,790 in the north. Notwithstanding the great difference in the number of spindles of the two sections, the consumption of cotton is practically the same. The annual consumption of cotton per spindle in the Northern mills is 67 pounds compared with 124 pounds in the South. The difference in the per spindle consumption indicates that the Northern mills are spinning yarns of very much greater fineness than those turned out by the Southern mills. The large output of the Southern mills this season has been mainly of heavy fabrics to supply the great increased demand from the Orient.

The report shows that in 25 years the production of the United States has increased from 5,755,539 to 13,693,279 bales, the total consumption of cotton in this country has increased from 1,671,383 to 4,378,980 bales. Within the last five years the cotton consuming establishments of the Southern States have increased their consumption from 1,483,711 to 2,140,151 bales. During these five years the Northern cotton consuming establishments have actually decreased their consumption by 16,955 bales, explained by these mills being engaged during this period in replacing old machinery by more modern. The world's cotton production for 1904, entering commercial channels was 18,041,859 bales, with a total consumption of 15,474,980 bales. This indicates a world's surplus of 2,566,879 bales. Of the total production 2,960,000 bales were grown in the East Indies, 1,187,000 in Egypt and the remainder in Brazil and other countries. Owing to the sensitive character of the cotton market, the report emphasizes the importance of accurate information on the question, and adds:

"While there have been some refusals in both sections of the country to supply the data required by the law, the information has as a rule been carefully and promptly given; and when the totals are compared with the figures of the commercial movement it is evident that the returns made to the Bureau of the Census have been remarkably accurate. In these cases where manufacturers refused to give the desired information statistics for such establishments received through reliable sources have been included in the totals of this report."

The report also says:

"Since the inauguration of the census reports on cotton ginning, the cotton crop has been brought more completely within the purview of the statistical method than any other farm commodity. The total production of each year is now known, within a few thousand bales, as early as the following March. The progress of the crop can be traced, bale by bale, to the mills North and South and to the several foreign countries. It will be a part of the purpose of these reports to learn what proportion of their purchases by mills have consumed and what the mills have on hand at given dates. In time, it is hoped that this exact knowledge can be extended so as to include foreign countries. With this knowledge in their possession the producer can himself determine what is a fair price for him to demand and the consumer what is a safe price for him to pay."

The bulletin is the first to be published on the subject under the act passed by Congress last February.

CHINESE BOYCOTT IN ABEYANCE.

Will Wait to See What Action Congress Will Take.

Washington, Oct. 9.—News that the merchants of China who have been prosecuting the boycott against American goods have decided to temporarily suspend that movement to await possible action of the United State Congress is softening the exclusive laws, is contained in official dispatches received to-day from Pekin. The action follows the advice of the Chinese government in the matter, which was given as a consequence of the attitude of President Roosevelt. Should Congress fail to take the desired action, the boycott will again come effective and will be pressed with renewed vigor.

MAN CAN'T BE HANGED

Ohio Murderer May Escape Gallows Because Hanging Will Not Break His Neck.

By Wire to The Morning Star

Chicago, Oct. 9.—Because of a peculiar freak of nature Robert Gardiner, a prisoner in the county jail here charged with the murder of Agnes Morrison, may escape the death penalty. When he was arraigned in court today his attorney, William Buckner Barbour, said:

"This is a case where it won't do you any good to ask for the death penalty. They can't break this man's neck if they do try to hang him, and you may lose him alltogether by hanging him and failing to execute the sentence in full."

It appears that the prisoner is suffering from ossification of the vertebrae and tissues of the neck. According to Professor Steffenson, of Rush Medical College, only five cases similar have ever come to the notice of the medical profession. Gardiner, who was formerly a cashier, carries his head tilted forward and slightly twisted to one side. He is unable to move his head or incline it except with great effort and is hardly able to eat or speak, owing to the effect of the ossification on the sympathetic membranes of the throat and bronchial tubes.

Attorney Buckner declares that the hardening of the bone and tissue has proceeded so far that it would be impossible to bring any strain upon the patient's neck that would be sufficiently severe to cause any discomfort other than a slight straining of the muscles.

ROOSEVELT'S CAROLINA VISIT

Governor Glenn Gone to Washington to See President.

By Wire to The Morning Star.

Washington, October 9.—Governor Glenn, of North Carolina, discussed with the President today the details of his approaching trip through North Carolina. They talked over the speech which the President is to deliver at Raleigh, which will be one of the important utterances of the journey through the South and concluded definite arrangements for the reception of the President at the various stops he will make in the State. Governor Glenn will accompany the President during his entire stay in North Carolina.

Raleigh, N. C., Oct. 9.—A letter today from Secretary Loeb to the State Fair authorities says that in the party with President Roosevelt on his visit to Raleigh on October 19 and on his Southern trip will be Mrs. Theodore Roosevelt and maid, Secretary Loeb, Surgeon General Rixey, Messrs. H. C. Latta, John L. McGrew, John McIlhenny, John L. Greenway, L. S. Brown, representatives of three press associations, one photographer, two secret service men, and two messengers. Mrs. Roosevelt will accompany the party as far as Atlanta, and Governor R. B. Glenn, of North Carolina, will be with the party in this city.

Charles E. Hughes yesterday declined the nomination of the Republicans for Mayor of New York. Richard Young who was nominated for controller also declined.

EMBEZZLERS IN SAVANNAH.

Gaynor and Greene at Scene of Their Exploits.

By Wire to The Morning Star.

Savannah, Ga., October 9.—John F. Gaynor and B. D. Greene, the men who fought extradition to the United States from Canada for so many years, arrived here at 6 o'clock this morning. Their wives who had preceeded them to Savannah met them at the depot. The prisoners were at once taken to jail by United States Marshal White, who had gone to Montreal for them accompanied by Deputy Doyle.

Messrs. Gerrard and Meldrim have been engaged to represent the defendants. The latter spent some time with his clients to-day in jail.

Many called to see the prisoners, but only a few were admitted.

Arrangements have been made to supply the two men with meals from a hotel.

Mrs. Gaynor and Mrs. Greene were with their husbands for one hour this morning at the jail. John F. Gaynor, Jr., was also a visitor.

MANY TIMES A CRIMINAL.

Grand Jury Found 97 Indictments Against Illinois Banker.

By Wire to The Morning Star.

Peoria, Ills., Oct. 9.—The grand jury this afternoon reported eighty-four indictments against Newton C. Dougherty in addition to the 13 already found. Forty-five of these are for forgery, each containing eight counts. Thirty-nine are for embezzlement each containing six counts. The amounts involved are from $14.40 to $600. Bonds are fixed in the sum of $1,000 on each indictment for forgery and for $500 each for embezzlement, making a total of $64,500. Joseph Weil, Dougherty's attorney, announced that Dougherty would appear in court of his own accord. Dongherty who has appeared indifferent heretofore, this afternoon showed the first signs of collapse.

ROOSEVELT AND FOOT BALL.

President Wants Brutality Eliminated From Game.

By Wire to the Morning Star.

Washington, October 9.—President Roosevelt entertained at luncheon today Dr. D. H. Nichols and W. T. Reid of Harvard, Arthur T. Hillebrand and John B. Fine, of Princeton, and Walter Camp and Mr. Owsley, of Yale. The six guests of the President constitute the athletic advisers of the respective colleges named. The President desired to consider with them particularly the morale of the game of football with a view to eliminating much of its brutality if possible. A general discussion of college athletics was had but the talk centered around the game of football. It is hoped by the President that with the co-operation of the college authorities and the athletic advisers the rules of the game may me so amended as probably to do away with much of the brutality which makes the game objectionable to many people. It is understood that no definite conclusions were reached. Indeed none was expected, the idea of the President being simply to start the ball rolling in the direction of a modification of the rules of the game.

The best in Millinery is at Rehder's. They also have the lowest prices. **

FEVER RECORD FOR YESTERDAY

Pensacola is Badly Infected and Had More Cases Than New Orleans

DECREASE IN CRESCENT CITY

Seventeen Cases There to Twenty-Two In Pensacola—Natchez Makes Bad Report With Sight New Cases. Vicksburg Had Six.

By Wire to The Morning Star.

New Orleans, Oct. 9.—The following is the official summary of the yellow fever record at New Orleans up to 6 P. M. to-day:

New cases to-day. 17; total cases to date, 3,212.

Deaths to-day, 1; total datehs to date, 411.

New foci, 6.

Cases under treatment, 187.

Cases discharged, 2,614.

The record of 17 new cases, and one death is the lowest since July last. The continued low record and the anticipated early approach of cold weather, caused Dr. White to issue orders to his forces to discontinue all general oiling and other anti-mosquito work, and all general block fumigation except in blocks already begun. There are exceptions to this, where there are still nests of infection. All house to house inspection will be discontinued after October 15th. Only two of the new cases are above Canal street. A case was taken off the British steamship Etonian, but it was contracted in the city, as the vessel had been here since the 27th of September. The only death in the city occurred in Algiers.

News reached the city of the death of Dr. Charles M. Shanely at his home in Barrataria, which is 18 miles from the city. Dr. Shanely discovered the infection in his neighborhood, and was placed in charge of the work by the State Board. He was stricken with the fever about three weeks ago, and was treated at the Emergency Hospital in the city, and discharged as cured, but against the advice of Dr. Jones, he returned home and resumed his charity work, which had been interrupted. He suffered a relapse and died Monday morning at 5 o'clock.

Passed Assistant Surgeon G. M. Coput, will go to Patterson to-morrow to look the situation, and it is very likely that he will be placed in charge of the work of cleaning up the infections there. Reports from the country were:

Patterson, 9 new cases, 1 death.

Kenner, 2 cases, 1 death.

Bayou Natchez, 1 suspicious case, 1 death.

Barrataria, 1 death.

Amelia, 2 new cases.

Gretna, 1 case, 1 death.

Wildwood, 2 new cases, 1 death.

Six New Cases at Vicksburg.

Vicksburg, Miss., Oct. 9.—One death and six new cases was the yellow fever report for the 24 hours ending at 6 P. M. to-day. Only three of the new cases are in the city, the others being in the country.

Bad Day in Natchez.

Natchep, Miss., Oct. 9.—Yellow fever took another leap to-day, encroaching upon two non-infected blocks and a thickly populated residential district. Of the eight new cases, four are white. Summary: New cases, 8; new foci, 2; total cases to date 142; total deaths, 7; cases under treatment. 32; discharged, 10.

Mississippi Epidemic.

Jackson, Miss., Oct. 9.—The official yellow fever summary for the past twenty-four hours is as follows:

Natchez, 8 new cases, 2 new foci.

Roxie, 6 new cases.

Vicksburg, 3 new cases, in the country 3, 1 death.

Hamburg, 1 new case, 1 death, 4 patients discharged.

Gulfport, Mississippi, Soria City, Scranton, Moss Point, Port Gibson and Harristone, no new cases and no deaths. This is the third consecutive day that has passed without new infection on the gulf coast. State Health Officer Magee has asked for an allowance of $6.000 for fumigation work to be used under the direction of the Marine Hospital Service.

Sweeping Pensacola.

Pensacola, Fla., Oct. 9.—The following is the summary of the yellow fever situation as given to-night by the State Board of Health.

New cases to-day, 22.

Deaths to-day, 4.

Total cases to date, 275.

Total deaths to date, 42.

Discharged, 114.

Under treatment, 123.

One death, that of Mr. Bowen, manager of the Southern Hotel, is not included in the official report, as he did not expire until 9 o'clock after the official report had been promulgated.

The increase in the number of cases is due partly to the inspection being made by the citizens' committee, who have volunteered their services and are making a house-to-house inspection each day. Owing to weather conditions, it is not expected that the cases will decrease within the next ten days, but rather increase.

BABIES ARE EATEN IN HAITI.

Report on Finances in Negro Republics Mentions Cannibalism.

By Wire to The Morning Star.

Washington, Oct. 9.—H. F. Worley, an agent of the insular bureau, who was sent to Santo Domingo to investigate the revenue conditions on the border between the Dominican and Haitian republics, has made a partial report to the War Department. He estimates that the smuggling that has been going on across the border has cost the Dominican government from $350,000 to $400,000 a year. The method was to land goods at points in Hayti and send them by coasting vessels near the Dominican line. They were then carried over the border by mule trains.

The tariff in Santo Domingo, according to estimates made by Mr. Worley, is about 73 per cent. advalorem, which is a great inducement to smugglers.

Mr. Worley also made a trip into the interior of Haiti while he was on the island and says that reports were often brought to him of savage customs in the wildest regions, including cannibalistic feasts where the victims are babies. These reports were sufficiently authentic to be believed by him.

The newest in Millinery is at Rehder's. **

HEALTH CONFERENCE

Twelve South American Republics Represented in Internation Gathering in Washington.

By Wire to The Morning Star

Washington, Oct. 9.—Delegates from 12 South American republics, from the army and navy, and from the American Public Health and Marine Hospital Service, attended the opening session of the second general international sanitary convention here today. Surgeon General Walter Wyman, chairman of the International Health Bureau, presided. The address of welcome on behalf of the Washington government was made by Mr. Root, the Secretary of State. Mr. Taylor the assistant Secretary of the Treasury, also welcomed on behalf of the Public Health and Marine Hospital Service. The response was made by Mr. Quesada, the Cuban minister.

The various services rendered to the public health by the work of the sanitary convention were enumerated by Dr. Wyman. The co-operation on behalf of the American and Mexican health officials of the two countries, he declared, had saved many lives in both countries.

Dr. Wyman asked consideration of the advantages of international agreements in the interest of the health of their people. With the growing of a sentiment for peace among the nations, he said there should be developed a similar sentiment that would work for international health.

In his welcome, Secretary Root said:

"It is a sincere satisfaction to the people of the United States that the soil of our country is found a favorable place for all the agencies of peace, of justice, of humanity, and that the atmosphere breathed here furthers peace and kindly feeling among all people. We in this country would rather contribute to the saving of lives than to the destruction of them. I believe almost all war and bitterness between nations result from misunderstanding, from a failure of the people of one country to appreciate the people of another. The cure of national misunderstandings is acquaintance."

Mr. Quesada referred to the remarkable achievement of Mexico, where during the last year, yellow fever has been most successfully fought, and expressed the sympathy of all the delegates with those States of the Union which have been so sorely afflicted the last few months.

The convention adjourned until to-morrow

SULLY IN RALEIGH.

Great Bull Leader Expects 14c for Cotton By Xmas.

Raleigh, N. C., Oct. 9.—Daniel J. Sully, the well-known cotton speculator, arrived here this morning, and will make an address to-morrow to the cotton men of Raleigh and Wake county. Mr. Sully is making a tour of the South, trying to impress upon the farmers to hold cotton. Even until November 1st. when, he says, they will get 11 cents for the staple. Mr. Sully says that the Government report was far from right, that the condition of the crop, instead of being 71.2 was nearer 68. "My estimate," said Mr. Sully, "is made from reports of my own correspondents."

Mr. Sully said he expected cotton to sell for 14 cents before Christmas. Mr. Sully drove into the country this afternoon to see at first hand the condition of the cotton crop. He said that, viewing cotton fields from the train, he thought a great per cent. of the crop had been picked. "The people are helping me," said Mr. Sully, "to bring a bull campaign to a successful conclusion."

SECRETARY TAFT, CANAL CHIEF.

Will Go to Panama and Look Over His Big Job.

By Wire to The Morning Star.

Washington, Oct. 9.—Secretary Taft will sail on a naval vessel from New Orleans for Panama bout November 1st. It is not his intention to remain very long on the Isthmus, his main object being to talk with Governor Magoon and Engineer Stevens and to look over the situation as it now exists in the way of construction and preparation. At the conference with the President, when it was decided to leave the administration of the canal in the War Department, Secretary Taft made it plain that if he was to have the responsibility for the canal, he would be supreme in its management, and there would be no intermediary between himself and the President. The Secretary will take absolute charge of all the important business transactions regarding the canal construction and its management, operating through the isthmian commission.

WASHINGTON POST COMPANY.

John R. McLean Buys Half Interest—Will Be President.

By Wire to The Morning Star.

Washington, Oct. 9.—John R. McLean, owner of the Cincinnati Inquirer, to-day purchased from the Wilkins estate an even half interest in the Washington Post Company. The amount of the purchase money is not stated, but it is understood to be in the neighborhood of $600,000. Mr. McLean will be made president of the Post Company, and will take an active part in connection with John F. Wilkins in the management of the paper.

ENGLISHMAN'S EAR CUT OFF.

Turkish Brigands Demand $5,000 for His Ransom.

By Cable to The Morning Star.

Salonica, European Turkey, Oct. 9.—The British consulate at Monastir has received a package containing a human ear which, a letter accompanying the package declares, was cut from an Englishman named Willis, recently employed by the Turkish tobacco revenue department. Wills was captured by brigands some months ago, and the letter threatens that he will be murdered unless a ransom of $5,000 be paid by October 14th.

Dutch Steamer Attached.

The Dutch steamer Barendrecht, which arrived a few days ago for cargo of cotton but which cleared yesterday for Savannah, was attached or libelled in the Federal Court here just before she was ready to sail. Hon. Jno. D. Bellamy is counsel for the libellant and it is alleged that damage to the extent of $2,500 was done to a bridge at Charleston.

CHAMPIONSHIP BASEBALL.

New York National Win by 3 to 0 Over Philadelphia Americans.

By Wire to the Morning Star.

Philadelphia, October 9.—Masterly pitching by Christy Mathewson, backed up by gilt edged playing by the men behind him, gave the New York National League champions a victory today over the Philadelphia American League, pennant winners in the first of the series of seven games for the world's championship. Philadelphia failed to score, Matthewson allowing the home team only four hits; while the New Yorkers managed to score three runs off Plank. Although defeated, Philadelphia played a brilliant game. It was a clean victory for the visitors, the element of luck cutting no figure in the contest. The score:

New York .....0 0 0 0 2 0 0 0 1—3

Philadelphia .....0 0 0 0 0 0 0 0 0—0

Summary: Earned runs New York, 3; two base hits, McGann, Mertes, Davis, Murphy, Schreck. Sacrifice hits, Mathewson, Plank. Stolen bases Bresnahan, Donli, Devlin, Gilbert. Double plays Dahlen and McGann. Left on bases, New York, 9; Philadelphia, 4. First base on balls, off Plank, 2. First base on errors, Philadelphia, 1. Hit by pitcher, by Plank 1. Struck out by Mathewson, 5; Plank, 5. Time, 1:47. Umpires Sheridan and O'Day. Attendance 17,955.

University Day Observance.

The committee on celebration for University Day here has received very few replies from alumni who have been addressed by postal card to ascertain if they will co-operate in the movement for a proper observance in honor of their alma mater. About 96 postal cards were sent out to former students but up to yesterday, replies had been received from only 27. The committee must know by to-night just how many of the alumni will take part in the celebration as the nature of the event cannot be decided until the extent of the interest manifested is ascertained. The committee has a letter from Dr. C. Alphonso Smith, expressing regret that that another engagement prevents his acceptance of the invitation to be present and deliver an address upon the occasion of University Day here.

The Convict Inquiry.

In company with Mr. Preston Cumming, author of the charges of cruelty, the County Commissioners and newspapers representatives yesterday afternoon went out to Castle Haynes and took the testimony of about 50 prisoners in the rock quarry there, the evidence being with especial reference to the kind of whip used in flogging. Every one of the convicts said that the whip exhibited by the Commissioners or "one very much like it," was the one used. Several of them, however, said that blood had been drawn from them with the instrument. The Commissioners also showed their guests over the camp proper and testimony was taken as to the food and shelter given the prisoners. Few, if any, of the convicts had serious complaint to make, notwithstanding the criminal's natural instinct to chafe under restraint and to resist authority.

Good Woman Is No More.

Friends will be pained to learn of the death of Mrs. Julia Millard, widow of the late R. W. Millard, of Duplin county, which occurred yesterday morning at 4 o'clock at the home of her daughter. Mrs. W. H. Gilbert, on the third uoor of the Atlantic National Bank building, this city. Mrs. Millard was 70 years of age and had been confined to her room for several months. Her death was due more to the infirmities of age than to any specific disease. Mrs. Millard leaves three daughters, Mrs. W. H. Gilbert, Miss Sallie Millard, and Mrs. Wentworth Faison, and one son, Mr. Octave Millard, to mourn their loss. The remains were sent to Kenansville yesterday morning for interment.

Syrians in General Fight.

On account of a disagreement over the occupancy of a store on Market street, near Front, six members of the Syrian colony in Wilmington engaged in an affray, fast and furious, yesterday evening about nightfall. The store had been rented by one of the parties from Messrs. J. G. Wright & Son and its possession was claimed by another. Friends of both sides had lined up for the fray and were in the midst of a pitched battle when Policeman W. R. Appleberry and what bystanders would respond to a summons, rushed in and quieted the disturbance. All the parties gave bond at the police station for their appearance in the municipal court to-day at noon.

STAR BUSINESS LOCALS!
